The reason for the proposed General Service rate increase is to provide the Water District with sufficient operating revenue due to an increase in wholesale rates from the Water District's supplier White House Utility District (WHUD). The increase in General Service rates is a pass through of the increase in charges from WHUD. The Water District does not at this time propose any change in Private Fire Service Rates as previously approved by the Public Service Commission. Any person may file a written objection with the Public Service Commission within twenty (20) days of this Notice.

The rates contained in this Notice are the rates proposed by the Simpson County Water District. However, the Public Service Commission may order rates to be charged that differ from these proposed rates. Such action may result in rates for consumers other than those rates included in this Notice.
